The Chair opened the public hearings for all the sign applications.

a. Application by WBIN Media, Inc., requesting Design Review Approval for two new affixed signs and three new freestanding signs at 4 Church Street, the former Walker School, within the Institutional (IS) District.

Mr. Henninger detailed the application for five signs; two affixed and three free-standing. He stated that the plans have been modified to reduce the size resulting in less obtrusive signs and that the location of the sign at the intersection of Bouton and North State streets had been pulled further from the street at an abutter's request.

The Board questioned the lighting of the signs. Ms. Hebert stated the lights would be halo lighting which is not internal nor spotlights. The Board expressed concern over the Residential Zoning rules around lighting since the property is in the Historical District. Ms. Hebert stated that the lighting, including sign lighting and building lighting, would be turned off at 11pm each night, although there is nothing in the Zoning Ordinance that requires this.
